VARADHA RAJAN PERUMAL

FULL STACK DEVELOPER

9962715863 | pvaradharajan98@gmail.com | Chennai

PROFILE

Full Stack Developer with **3+** years of experience in designing, developing, and deploying scalable web applications using **JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, PostgreSQL, and MongoDB.** Skilled in building modern, responsive, and high-performance solutions with strong proficiency in REST APIs and authentication. Experienced in developing payment gateway , loan and property management systems with optimized user experience and seamless backend integration. Proven ability to work across the full software development lifecycle from requirement analysis to production deployment, collaborating with cross-functional teams and applying Agile methodologies. Passionate about writing clean, reusable code, improving performance, and solving complex technical challenges.

WORK EXPERIENCE

FINALTY | JAN 2024 - NOV 2025

FULL STACK DEVELOPER | Loan & Property Management System

- Designed and developed end-to-end features for a loan and property management platform enabling seamless customer onboarding, loan application processing, property records handling, and status tracking.
- Built scalable REST APIs for loan approvals, repayment schedules, property document management, and user role-based access systems.
- Implemented responsive UI screens for borrower profiles, property details, EMI calculators, payment tracking, and admin dashboards using React.js, Next.js, and Tailwind CSS.
- Integrated authentication and authorization using JWT/Clerk/NextAuth to ensure secure access for admin and customers.
- Collaborated with cross-functional teams including QA, UI/UX, and product managers to deliver features in Agile sprint cycles and enhance platform usability.

IPPOPAY | AUG 2022 - NOV 2023

FULL STACK DEVELOPER | Payment Gateway

- Developed a payment gateway analytics dashboard enabling real-time tracking of transactions, settlements, refunds, and revenue insights using React.js and node.js.
- Built secure REST APIs to process payment data, transaction status, user access control, and financial reporting using Node.js, Express.js, and MongoDB.
- Allowing merchants to view payment history, filter reports, download invoices, and monitor performance.

SKILLS
